Enterprise HR Portal — User Manual

Version: 1.0 | **Last Updated:** 2026-03-08

Table of Contents

1. Getting Started
2. Employee Guide
3. Manager Guide
4. HR Manager / HR Officer Guide
5. Payroll Manager / Payroll Officer Guide
6. Admin Guide
7. Executive Guide
8. Mandoob Guide
9. Common Features

---

1. Getting Started

1.1 Logging In

1. Navigate to the portal URL
2. Enter your **Identifier** (username)
3. Enter your **Passcode** (password)
4. Click **Secure Login**

> *[!TIP] The system will automatically route you to your default landing page based on your role:*
>
> - ***Employee*** *→ Profile page*
> - ***Manager*** *→ Directory page*
> - ***All other roles*** *→ Dashboard*

1.2 Switching Language

- Click **ENG** or **ARA** at the bottom of the sidebar to switch between English and Arabic
- The entire interface, including RTL layout, adjusts automatically

1.3 Session Indicator

The sidebar shows a **connection indicator**:

- 🟣 Purple dot with latency (e.g., `45ms`) = **Live** Supabase connection
- 🔴 Red dot = **Offline** or connection error

---

2. Employee Guide

Available Modules

📋 Profile · 🗓️ Leave Management · 📍 Attendance

2.1 Viewing Your Profile

1. Click **Profile** in the sidebar

2. View your personal information, position, department, and salary details
3. To request a profile update, click the edit icon next to any field
4. Submit the change — it will go through the **Profile Update Approval Workflow**

2.2 Submitting a Leave Request

1. Navigate to **Leave Management** (🗓️ in sidebar)
2. Click **New Request** to open the leave form
3. Complete the form:

Field	Instructions
Leave Type	Select: Annual, Sick, Emergency, Maternity, Hajj, Marriage, Compassionate, Paternity
Start Date	First day of leave
End Date	Last day of leave
Reason	Brief explanation

4. The system will automatically show a **calculation breakdown**:
    - Total leave days (excluding public holidays)
    - Fridays excluded (always)
    - Saturdays excluded (if you're on a 5-day schedule)
5. Click **Submit** — your request enters the approval workflow

Leave Balance Cards

Your current balances are displayed at the top:

- **Annual Leave**: Remaining days available
- **Sick Leave**: Remaining days available
- **Emergency Leave**: Remaining days available
- **Pending**: Days currently in approval pipeline (shown separately)

> *[!NOTE] If you see "Pending" days, these are already submitted requests that haven't been finalized yet. They are reserved from your balance.*

2.3 Submitting a Short Permission (Hourly Leave)

1. In Leave Management, toggle the **Hour-Based** option
2. Select the **date** (must be at least 1 day in the future)
3. Set the **hours** (1–8)
4. Submit the request

Rules:

- Maximum **8 hours per calendar month**
- A usage meter shows your current month's consumption
- 8 hours of short permission = 1 day deducted from Annual balance
- Same-day requests are not allowed

2.4 Resuming Duty After Leave

After returning from an approved leave:

1. Go to **Leave Management**
2. Find your approved leave (status: `HR_Approved`)
3. Click **Resume Duty**
4. The system records your resumption date
5. Status changes to `Resumed` — HR will then finalize the leave

> *[!IMPORTANT] You must actively confirm your resumption. HR cannot finalize your leave until you do so.*

2.5 Checking Attendance

1. Navigate to **Attendance** (📍 in sidebar)
2. View your daily attendance log: clock-in time, clock-out time, location, source
3. Clock-in via browser if web attendance is enabled

2.6 Submitting an Expense Claim

1. Navigate to **Expense Claims** (if available via Leave Management or Admin Center)
2. Click **New Claim**
3. Enter: Merchant, Amount, Date, Category, and upload Receipt
4. Submit — the claim routes through Manager → HR → Payroll → Payment

---

3. Manager Guide

Available Modules

📊 Dashboard · 📋 Profile · 📍 Attendance · 📅 Leave Management · ✅ Approvals · ⭐ Performance

---

3.1 Approving Leave Requests

1. Navigate to **Approvals** (✅ in sidebar)
2. Click the **LEAVES** tab
3. You will see all pending leave requests from your team
4. For each request:
    - Click **Approve** → Status becomes `Manager_Approved` (forwarded to HR)
    - Click **Reject** → Status becomes `Rejected`

> *[!TIP] You can also approve leaves from the **Leave Management** module, which shows more details including the employee's remaining balance and calendar view.*

3.2 Approving Overtime Requests

1. In **Approvals**, click the **OVERTIME** tab
2. Review overtime entries (auto-generated from attendance logs)
3. For each entry:
    - Click **Approve** → Forwarded to HR acknowledgment
    - Click **Reject** → Overtime rejected

3.3 Team Leave Overview

- In **Leave Management**, you can see all leave requests from your department
- The approval queue shows requests requiring your action
- The history section shows all past requests with status tracking

- Adjust finalized days using the **HR Edit** controls (if you have permission)

3.4 Performance Reviews

1. Navigate to **Performance** (⭐ in sidebar)
2. Select an employee to evaluate
3. Score each KPI defined in their template (0–100)
4. Submit the evaluation for executive/HR review

---

4. HR Manager / HR Officer Guide

Available Modules

📊 Dashboard · 📋 Profile · 📍 Attendance · 📅 Leave Management · ✅ Approvals · 👥 Directory · 🛡️ Admin Center · ⚖️ Compliance · 🈂️ Mandoob PRO · 💰 Payroll (HR Manager) · 📜 Settlement (HR Manager) · 🏦 Finance (HR Manager) · ⭐ Performance

---

4.1 Leave Management (HR Actions)

After a manager approves a leave:

Step 1: HR Approval

1. Go to **Leave Management**
2. Find requests with status `Manager_Approved`
3. Review the request details
4. Click **HR Pre-Approval** → Status becomes `HR_Approved`

Step 2: Wait for Employee Resumption

- Employee must click **Resume Duty** after returning
- Status changes to `Resumed`

Step 3: HR Finalization

1. Find requests with status `Resumed`
2. Optionally adjust the **finalized days** (e.g., if the employee returned early)
3. Toggle **Include Saturdays** if the employee works 6 days
4. Click **Finalize & Sync** → Status becomes `HR_Finalized`
5. The balance is deducted from the employee's leave entitlement

> *[!IMPORTANT] Finalization triggers the leave balance deduction via database triggers. This is irreversible unless the leave is reversed.*

Reversing a Leave Transaction

1. Find a finalized or paid leave in the history
2. Click **Reverse Leave** → Confirm the action
3. The leave status reverts to `Rejected` and the balance is retained

---

4.2 Workforce Directory

1. Navigate to **Directory** (👥)
2. View all employees with search and filter capabilities
3. Click an employee to view/edit their full profile:

- Personal details (name, civil ID, passport, etc.)
- Employment details (position, department, salary)
- Allowances configuration
- Leave balances
- Bank details (IBAN, bank code)
- Document expiry tracking

Adding a New Employee

1. Click the **+ Add Member** button in the sidebar
2. Fill in the employee modal form
3. Submit — the employee is created with default leave balances

---

4.3 Admin Center

Navigate to **Admin Center** (🛡️) for:

Function	Description
Sync Data Tables	Populate/refresh core data tables
Generate Attendance	Create historical attendance records
Calculate OT	Process attendance → overtime entries
Rollback Payroll	Delete a payroll run (use with caution)
Announcements	Manage company-wide announcements (bilingual)
Public Holidays	Add/remove/edit holiday calendar
Office Locations	Manage geofenced office locations
Departments	Configure department metrics and Kuwaitization targets
Expense Claims	Review and approve/reject expense claims

4.4 Compliance Dashboard

Navigate to **Compliance** (⚖️) to monitor:

- Kuwaitization ratios per department
- Document expiry alerts (Civil IDs, Passports, Work Permits)
- PIFSS registration status

---

5. Payroll Manager / Payroll Officer Guide

Available Modules

📊 Dashboard · 📋 Profile · 📍 Attendance · 📅 Leaves · ✅ Approvals · 💰 Payroll · 📜 Settlement · 🏦 Finance · 📈 Profit Bonus

---

5.1 Running Monthly Payroll

Generating a Draft

1. Navigate to **Payroll Console** (💰)
2. Under **Cycle Configuration**:
   - Select **Logic Architecture**: Monthly or Bi-Weekly
   - Select **Audit Period**: Month and Year
3. Click **Execute Period Audit**
4. System generates a Draft payroll run with all active employees

Reviewing the Audit Grid

1. Click **Audit Grid** tab to see line items
2. Each row shows:
   - Employee name and ID
   - Basic salary, housing, other allowances
   - Leave deductions, overtime, sick/annual leave pay
   - PIFSS deduction and employer share
   - Indemnity accrual
   - **Net Salary**
3. Verify the **CORE INTEGRITY** column — should show green "OK"

Finalizing the Run

1. After review, click **Finalize**
2. Confirm the action — this locks the payroll run
3. Status changes to `Finalized`

Viewing Batch Slips

- Click **Batch Slips** tab to see individual payslips
- Each slip shows the full earnings/deductions breakdown

5.2 Leave Hub Payout

The Payroll Console shows a **Leave Settlement Hub** for processing leave payouts:

1. Left panel lists all leaves with status `HR_Approved`, `HR_Finalized`, `Paid`, or `Pushed_To_Payroll`
2. Each leave shows its **processing path**:
   - 🟡 **Month-End Path**: ≤7 days, ends before 25th
   - 🟢 **Hub Path**: >7 days or straddles month-end
3. Click a leave to see the **payout calculation**:

Component	Description
Work Days Analysis	Pre-leave working days × full daily rate
Leave Settlement	Payable leave days at base + housing rate
PIFSS Deduction	11.5% of basic (Kuwaiti only)
Fridays Excluded	Days removed from calculation
Non-Housing Exclusion	Non-housing allowances excluded during leave

Sick Leave Deduction	Tiered deduction for sick leave
Total	**Net payout amount**

4. Choose action:
    - **Authorize Payout** (Hub Path) → Creates a Leave Run and settles immediately
    - **Push to Monthly** (Month-End Path) → Defers settlement to standard monthly cycle

After Settlement

- Status changes to `Paid` (Hub) or `Pushed_To_Payroll` (Monthly)
- The Leave Run appears in the **Audit Archive** on the left

5.3 WPS Export

1. After finalizing a payroll run, navigate to the run details
2. Select the **bank format**: NBK, KFH, BOUB, GULF, or Standard
3. Click **Export WPS**
4. Download the CSV file for bank submission

5.4 Final Settlement (EOSB)

1. Navigate to **Settlement** (📜)
2. Select the terminating employee
3. Enter:
    - **End Date**: Last working day
    - **Reason**: Resignation or Termination
    - **Unpaid Days**: Days to deduct from service tenure
4. System calculates:
    - Service tenure (years, months, days)
    - Indemnity amount (with resignation multiplier if applicable)
    - Leave encashment (unused annual leave)
    - Total settlement
5. Review the detailed breakdown including:
    - First 5 years vs subsequent years calculation
    - 18-month cap check
    - Resignation multiplier applied

5.5 Overtime Processing

1. In **Approvals** → **OVERTIME** tab
2. Review approved overtime entries (status: `PENDING_PAYROLL`)
3. Click **Process to Payroll** to include in the next payroll run

---

6. Admin Guide

Available Modules

All modules (full access)

6.1 Security & Roles Management

1. Navigate to **Security & Roles** (🔐)
2. View all system users and their assigned roles
3. Modify role permissions:
    - Enable/disable specific module access per role
    - Database-level permissions override sidebar defaults
4. Create new user accounts with role assignments

6.2 System Administration

Database Operations (Admin Center)

- **SQL Terminal**: Execute raw SQL queries (use with extreme caution)
- **Sync Data Tables**: Seed initial data for new environments
- **Generate Attendance**: Create test attendance data

Payroll Operations

- **Rollback Payroll Run**: Delete a specific payroll period
- **Reverse Leave Payout**: Undo a leave settlement, revert to Rejected status

Configuration

- **Company Settings**: Update MOL ID, employer ID, company name
- **Office Locations**: Add/edit/remove office geofences
- **Public Holidays**: Manage the holiday calendar
- **Departments**: Configure department metadata and Kuwaitization targets

---

7. Executive Guide

Available Modules

📊 Dashboard · 📋 Profile · 📍 Attendance · 📅 Leaves · ✅ Approvals · 💰 Payroll · 🏦 Finance · ⚖️ Compliance · 💹 Profit Bonus · 📈 Strategy · ✨ Insights · 📑 Whitepaper

---

7.1 Dashboard Overview

The Dashboard provides:

- Headcount by department and nationality
- Payroll summary and trends
- Leave request pipeline (pending count)
- Document expiry alerts
- Attendance statistics

7.2 Profit Sharing Bonus Pools

1. Navigate to **Profit Bonus** (💹)
2. Click **Create Pool**:
    - Enter period name and total net profit
    - Set recommended pool percentage
    - Choose distribution method:
        - **Equal Split**: Same amount to all eligible employees
        - **Pro Rata Salary**: Proportional to salary

    - Set eligibility cutoff date
3. Review the auto-calculated allocations
4. **Approve** the pool → HR processes payments

Pool Lifecycle: `DRAFT` → `EXECUTIVE_APPROVED` → `HR_PROCESSED` → `PAID`

7.3 Strategic Reports

- **Insights** (✨): AI-powered workforce analytics
- **Strategy** (📈): Management dashboards
- **Whitepaper** (📑): Regulatory and compliance documentation

---

8. Mandoob Guide

Available Modules

📊 Dashboard · 📋 Profile · 📍 Attendance · 📅 Leaves · 🈂️ Mandoob PRO · 🛡️ Admin Center

---

8.1 Mandoob PRO Module

The Mandoob (Government Representative) module tracks:

- Civil ID renewals and expiry dates
- Work permit (Izn Amal) expiry tracking
- Passport renewals
- PIFSS registration status
- Compliance document tracking

> *[!TIP] Set up proactive alerts for documents expiring within 30/60/90 days to stay ahead of renewals.*

---

9. Common Features

9.1 Notifications

- Bell icon in the header shows unread notifications
- Categories: Leave alerts, payroll alerts, document expiry, approval requests
- Click a notification to navigate to the related item

9.2 Intelligence Ticker

The scrolling ticker at the top displays:

- Upcoming public holidays
- Sick leave policy reminders
- System announcements
- Department alerts

9.3 Display Modes

Mode	Description
Standard	Full-size interface
Compact	Condensed UI with smaller text and spacing

Presentation	16:9 stage mode for projecting
Mobile	Touch-optimized mobile interface

Toggle modes via the **Display Settings** button in the top-right header.

9.4 Bilingual Support

- All core UI elements are translated to Arabic
- Employee names support both English and Arabic variants
- Department names, announcements, and holidays are bilingual
- RTL layout activates automatically when Arabic is selected

For technical support, contact the system administrator. For HR policy questions, contact HR Management.
